

WWAMI-Alaska Foundations Schedule for 2018-2019

| | Monday | Tuesday | Wednesday | Thursday | Friday |
|-----------|------------------|------------------|--|------------------|------------------|
| Morning | Class 8:00-12:00 | Class 8:00-12:00 | Primary care** practicum OR FCM/Clinical Skills | Class 8:00-12:00 | Class 8:00-12:00 |
| Afternoon | Free | Free | Primary care practicum** OR Hospital tutorial* | Free | Free |

Class time: Class delivery methods will vary by block and at times within a block. All blocks will have a predominantly active learning approach, with expectations of student preparedness for class discussions. Students will have four hours per day of class, with most being active learning or laboratories and no more than one hour of lecture. All courses will have a final examination and periodic assessments. Some exams and some limited short learning experiences may be scheduled outside of normal class hours. Block objectives and core content for which students will be held accountable on exams will be the same across all WWAMI sites and exams will have the same questions and format. Timing of exams may vary slightly across sites.

****Primary care Practicum:** See attached description. Students will work in the same primary care physician's office for the duration of the Foundations Phase of the curriculum. Students will spend all day in the primary care office on alternate Wednesdays.

Clinical Skills Workshop: See attached description. Students will complete their clinical skills workshops on campus except for some field trips. These will be in the morning on alternate Wednesdays.

***Hospital Tutorial:** See attached description. Students will be assigned to a faculty mentor and small group of students with whom they will work throughout the Foundations Phase. These will be in the afternoons on alternate Wednesdays.
