Afternoon	Class 1:00-5:00	Class 1:00-5:00	PCP OR Clinical Skills Workshop	Class 1:00-5:00	Class 1:00-5:00

**Class time:** Class delivery methods will vary by block and at times within a block. All blocks will have a predominantly active learning approach, with expectations of student preparedness for class discussions. Students will have four hours per day of class, with most being active learning or laboratories and no more than one hour of lecture. All courses will have a final examination and periodic assessments. Some exams and some limited short learning experiences may be scheduled outside of normal class hours. Block objectives and core content for which students will be held accountable on exams will be the same across all WWAMI sites and exams will have the same questions and format. Timing of exams may vary slightly across sites.

**\*\*Primary care Practicum:** See attached description. Students will work in a primary care physician's office starting in January 2019. In most cases students will spend every other Wednesday with their PCP.

**\*Hospital Tutorial:** See attached description. Students will be assigned to a faculty mentor and small group of students with whom they will work throughout the Foundations Phase. The class will be divided into four groups. A group leader will be assigned to communicate with your hospital faculty to determine which mornings the group will meet

**Clinical Skills Workshop:** See attached description. Students will complete their clinical skills workshops on campus in the WWAMI classroom. Most clinical skills workshops will consist of your core group and your college mentor and will meet on either Wednesday mornings or afternoons. Some workshops will be for all groups and will meet on Wednesday mornings in the classroom
