Morning	Free	Hospital* tutorial OR Free*	Primary care** practicum OR Hospital* Tutorial	Hospital* tutorial OR Free*	Free
Afternoon	Class 1:30- 5:20	Class 1:30- 5:20	Primary care practicum** OR Clinical Skills Workshop	Class 1:30- 5:20	Class 12:30- 5:20

Class time: Class delivery methods will vary by block and at times within a block. All blocks will have a predominantly active learning approach, with expectations of student preparedness for class discussions. Students will have four hours per day of class, with most being active learning or laboratories and no more than one hour of lecture. All courses will have a final examination and periodic assessments. Some exams and some limited short learning experiences may be scheduled outside of normal class hours. Block objectives and core content for which students will be held accountable on exams will be the same across all WWAMI sites and exams will have the same questions and format. Timing of exams may vary slightly across sites.

****Primary care Practicum:** See attached description. Students will work in the same primary care physician's office for a substantial part of the foundations phase. Students will spend alternate Wednesdays in a primary care office.

Clinical Skills Workshop: See attached description. Students will complete their clinical skills workshops on campus except for some field trips. These will be in the afternoon on alternate Wednesdays.

***Hospital Tutorial:** See attached description. Students will be assigned to a faculty mentor and small group of students with whom they will work throughout the Foundations Phase. The class will be divided into two groups, Olympic and Cascade. In each of these two groups, the class will be divided into thirds and complete their Hospital tutorial on alternating weeks. One-third of students will be completing their Hospital tutorial morning on Tuesdays, one-third of students on Wednesday mornings, and one-third on Thursday mornings.
