The Marshall Space Flight Center is offering Faculty Fellowships for qualified STEM faculty at U.S. colleges and universities to conduct research with NASA colleagues during a ten-week residential program in Huntsville, Alabama.

- Faculty Fellows will receive stipends of $15,000 (Assistant Professor, Research Faculty), $17,000 (Associate Professor), or $19,000 (Professor).
- A relocation allowance of $1,500 will be provided to those fellows who live more than fifty miles from MSFC and a $500 travel supplement for one round-trip.
- Applicants must be U.S. citizens who hold full-time teaching or research appointments at accredited U.S. universities or colleges.
- During the ten-week program, fellows are required to conduct their research on-site at the Marshall Space Flight Center.

Women and under-represented minorities, and persons with disabilities are encouraged to apply.

| Full Name:                                                                 |
| Permanent Home Address:                                                   |
| Email Address:                                                            |
| Home Telephone:                                                           |
| Cell Telephone:                                                           |
| Applicant’s University Name and Work Address:                              |
| Present Academic Rank/Position:                                           |
| Area of Current Research or Interest:                                     |
| Work Telephone:                                                           |
| Fax Number:                                                               |
| Date of Birth:                                                            |
| Citizenship:                                                              |
| Gender:                                                                   |
| Ethnicity (optional):                                                     |

| Starting Date at MSFC: | June 6, 2016 |
| Ending Date at MSFC:   | August 12, 2016 |

Ending Date should be at least 10 weeks after start date above – please add additional weeks if you will need time off for a conference or vacation.

| Designated MSFC Area of Concentration in Which You Wish to be Engaged (Choose from attached list Marshall Areas of Concentration; area should match your research expertise) |
| Name & Contact Info of MSFC Researcher with whom you have been in contact (if any – not required): |

Please attach a resume and this application form to an e-mail and send it to Rachael Damiani at rachael.damiani@uah.edu by the deadline of February 15, 2016. If you have any questions, please call (256) 824-6076.

Applicant’s Signature

Date

Printed Name
Marshall Space Flight Center

Areas of Concentration

Propulsion Systems

- Launch Propulsion Systems
- In-Space Propulsion (Cryogenics, Green Propellants, Nuclear – Thermal, Solar Thermal, Solar Sails, Tethers, Methane
- Propulsion Test beds and Demonstrators
- Cryogenic Fluid Management
- Rapid Affordable Manufacturing of Propulsion Components
- High Temperature oxygen and hydrogen composite research
- Materials Research

Space Systems

- In-Space Habitation with Emphasis on Life Support Systems and Nodes/Elements
- Mechanical Design & Fabrication
- Small Affordable ISS and SLS Payloads
- In-Space Asset Management (Automated Rendezvous & Capture, De-Orbit, Orbital Debris Mitigation)
- Radiation Shielding
- Thermal Protection

Space Transportation

- Advanced Manufacturing
- Space Environmental Effects and Space Weather
- Lander Systems and Technologies
- Small Spacecraft and Enabling Technologies (Nanolaunch Systems)
- 3D Printing / Additive Manufacturing / Rapid Prototyping
- Meteoroid Environment
- Friction Stir and Ultrasonic Welding
- Advanced closed-loop life support systems
- Composites
- Wireless Systems

Science

- Replicated Optics
- High Energy Astrophysics (X-ray, gamma ray, cosmic ray)
- Heliophysics
- Interstellar & Planetary Dust
- Radiation Mitigation/Shielding
- Next Generation Observatories
- Earth / Atmospheric Science
- Severe Storms Research
- Climate Dynamics
- Lightning Research
- Remote Sensing
- Planetary Geophysics/Atmospheres
