INTERDEPARTMENTAL CORRESPONDENCE

Wayne E. Crill, M.D.
Professor & Chairman

November 7, 1990

TO: Philip J. Fialkow, M.D.
Dean, School of Medicine

FROM: Wayne E. Crill, M.D. *Wayne*

SUBJECT: Affiliate Appointments in Physiology & Biophysics

The faculty of the Department of Physiology & Biophysics will consider each appointment and/or promotion of an affiliate faculty member annually, at a special faculty meeting. For those faculty who have appointments at universities participating in the WAMI program, the level of appointment and/or promotion will parallel their academic progress at their parent university. The faculty of our department will only consider the evaluation of the teaching performance in the WAMI courses.

Individuals supported at institutions outside the University of Washington and the WAMI universities will be considered for promotion and/or appointment annually at a meeting of the faculty of the Department of Physiology & Biophysics. The standards for these appointments and/or promotions will be similar to those used for the research and regular faculty in our department.
